Education

Gyan Ganga College of Technology   **2021 − 2025**
Bachelor of Technology in Computer Science   *Jabalpur, M.P.*

Kids Care Higher Secondary School   **2021**
12th   *Katni, M.P.*
Percentage : 81%

Kids Care Higher Secondary School   **2019**
10th   *Katni, M.P.*
Percentage : 85%

Relevant Coursework

- Data Structures
- OOPs
- Software Engineering
- Operating System

Projects

Blog App | *React,context api, Tailwind Css, Node.js, express.js, mongodb,gemini-api*

- Built a dynamic, full-stack blogging platform where admins can write, edit, and manage blog content — while users explore, read, and comment on posts.
- Integrated Gemini AI to let admins generate blog content with just a click, making the writing process faster and smarter.
- Enabled seamless image uploads using Multer, allowing rich media posts directly from the dashboard. ● Designed a clean and responsive UI with Tailwind CSS, ensuring a smooth experience on all devices. ● Crafted RESTful APIs with Node.js and Express, and used MongoDB for efficient data storage and retrieval.

Chat-Bot | *React, Bootstrap, Context-Api*

- Developed with React and Context API for seamless state management, ensuring smooth communication between components.
- Gemini API powers the chatbot with advanced AI capabilities, providing intelligent, responsive interactions to users.
- Styled with Bootstrap, ensuring a clean, responsive design that adapts to any screen size and offers a modern, user-friendly interface.

Quiz app | *React, Context api, Tailwind Css, Node.js, express.js, mongodb*

- Created a full-stack quiz application where users can take topic-based quizzes and instantly see their scores. ● Developed an admin dashboard to add, update, and manage quiz content — supporting multiple coding categories like JavaScript, C++, and Python. ● Implemented real-time score tracking and dynamic question rendering using React + Context API. ● Styled with Tailwind CSS for a responsive, modern user experience across all screen sizes. ● Built secure RESTful APIs with Express.js, storing user data and quiz content in MongoDB for smooth backend performance.

Technical Skills

Languages: Html, Css, Javascript
Developer Tools: Git, GitHub, VS Code
Technologies/Frameworks: React, Redux, Context api, Node js, Tailwind Css
Database: MongoDB

Certifications

JavaScript Certification – GeeksforGeeks |

- Earned recognition for mastering core JavaScript concepts including functions, DOM manipulation, ES6, and asynchronous programming. Demonstrated proficiency through hands-on assessments and project-based evaluation.
